Descripción

Par la richesse de ses paysages et sa biodiversité, le Kenya est l'un des pays d'Afrique les plus fascinants et les plus appréciés. Avec ses prises de vues aériennes spectaculaires, ses photos de paysages extraordinaires, ses scènes animalières expressives et ses portraits de fiers Massais, cet ouvrage capture l'âme de ce pays et de ses habitants. Michael Poliza et ses amis photographes Steve Bloom, Paul Mckenzie et Federico Veronesi rendent de façon magistrale la beauté du Kenya, depuis le lac Turkana et le désert de Chalbi au Nord jusqu'à la réserve nationale de Masai Mara et le parc national d'Amboseli au Sud. Marquées par le respect des fragiles écosystèmes et des civilisations vivantes du globe, les photographies de ce livre réunissent émotions, compositions originales et perfection technique. Chacune de ces époustouflantes prises de vues est une oeuvre d'art en soi.
