Our qualification support packs support qualifications in Health and Social Care, Renewable Energy and Higher Level Studies, to name a few. These resources include many of our Apprenticeship qualifications too. To find the Qualification support packs simply visit our qualification search, find the qualification page you are.

The typical usage pattern for an electric fork lift truck is to use it until the power runs out, replace the battery pack with a fully charged one, and put the vehicle back in . This tool utilizes two separate workbooks: (1) an input spreadsheet for a typical or representative plant and (2) a calculation/output workbook with life cycle.

Every chemical reaction that exists is one of two things: endothermic or exothermic. The Greek root thermmeans temperature or heat, which gives us a clue about all reactions: there is energy exchange! Endomeans "within" while exo means "outside," so these types of reactions are opposite. Endothermic reactions are those.
