Descripción

Las escaleras suelen estar cargadas de simbolismo, y el hecho que sean vistas como un elemento secundario a la vez que necesario, no debe entorpecer la idea de que son elementos que pueden mostrar algo más que el simple mecanismo funcional inherente a su uso, deben representar la expresividad del diálogo que se establece entre espacios contiguos y fortalecer el concepto de elemento de transición que destaca por ser diferente o que se integra para ser igual.

Dichas unidades fueron instaladas justo al lado de las habitaciones, mientras que los tanques sépticos que alimentaban al sistema se ubicaron debajo del espacio que circunda la piscina. Consecuentemente, el control de olores resultaba de vital importancia. Finalmente, se reconstruyeron paredes y escaleras, y el resort.
